The personality or the word that I've chosen is "Barack Obama". The frequency (number of times) that he has occurred is 23749. If we compare the frequency based on sections, we can notice that the frequency is high in SPOK (7426) followed by BLOG (5846), WEB (5719) and NEWS (2462). Also, we can notice that till 2004 the frequency was less than 100. But, after 2004 there's a sudden raise the frequency count which is almost a hundred times more than the previous one. In collocations frequency table, we can observe that the word "President" has the more frequency.
